Publisher's note regarding paper

Jin Mei Wu Experimental research and numerical analysis on vibroacoustic characteristics of the laminated composite plate and its application in high-speed trains. *Journal of Vibroengineering*, Vol. 19, Issue 4, 2017, p. 3068-3083, <https://doi.org/10.21595/jve.2017.18049>

The description of the correction

A citation to source of the picture Fig. 6(h) was missing. The paper published by Yahui Wang, et al. [1] should be cited for Fig. 6(h). The authors of both papers are from the same team, college, and doing similar research. This explains the use the same microphone picture in both papers.

The title of Fig. 6(h) should be revised as follows: “h) Microphone [1]”.
